We source some of the top products for our menu.

We also believe that nature is the new luxury, that why 50% of our earning goes to support the environmental needs around Tulum.

Please visit our website to see how active we are and have many things we accomplished through several years .

Unifytulum.org and our active Artwithme.org/Care-with-me sections .

As Art With Me festival ends, we're moving the energy to our eco-community just a few kilometres outside Tulum, where we'll be holding space for conscious integration

Our 5 night, 6 day nature retreat allowed you to immersing yourself in deep jungle nature with sacred cenote waters and healing sauna.

With all these profound shifts happening both internally and externally, are you looking for a place to be nourished, to feel rejuvenated and to allow your vibrational frequency to elevate among the community of healers and stewards of the Earth?

As we honor the sacred Mayan lands, we will facilitate further evolution through eastern practices as well as bringing in medical knowledge and latest frequency technology.

We believe it requires bravery to step out of the traditional constructs of globalized monoculture and step into alternative systems grounded in the reality of what is possible when we align ourselves to the wisdom and power of Nature. To activate our roots as children of Gaia and remind us of our responsibility to live symbiotically.

Through our work, we have identified **three key aspects** that directly, effectively, and positively impact our global culture.

CONSCIOUSNESS TRANSFORMATION

Integrated ancestral wisdom mirrors life itself. With both as our teachers, we provide a supportive environment where people can voluntarily immerse in a guided and evolutionary process of self-realization.

The tools and rites of passage cultivated within this sacred container allows individuals to resolve cultural conditioning and uncover their unique qualities, talents and skills, as well as cultivate these gifts within a social community setting.

NATURAL HEALING & DISEASE PREVENTION

We utilize indigenous medicine practices and natural healing modalities from around the world to address sickness and disease on a variety of levels, from psycho-spiritual to somatic. In our experience, this approach to healing sicknesses and diseases targets the root of the dysfunctional conditions and eliminates them at their source, rather than merely addressing symptoms.

Today, more than any other time in history, the world needs viable models for this type of comprehensive healing.

STEWARDSHIP & ECO-REGENERATIVE LIVING

Vortex retreats is committed to the preservation of natural resources and restoration of degraded landscapes, as well as to permaculture and natural farming techniques that create vibrant, local food economies.

Our food forests and gardens serve as an educational model for others to replicate, provide an example of how to live in harmonious relationship with Pachamama (Mother Earth), and help to sustain our community.

Aside from our rustic jungle accommodation, spacious circular Yurts, huts built with coco cement and bamboo framed roofs, where we live completely immersed in the cycles of nature.

As co-creators of Ahau and Alaya Hotels, we have complete access to some of the most luxurious beach, facilities and with Raw Love raw vegan superfood restaurant to provide our participants with the highest quality experience.

COVID-19 RESPONSE :

All retreats will be
between 5 and 10 guests.

We are taking extra measures
to ensure safety with non harming
chemical sanitation
and open air facilities.

An integrative approach to Evolution and Healing
in positive Energy vortices of the Planet.

Through the awakened spirit of the individual
comes the greatest potential
for the transformation of the Planet.
